

A'amal CSS

We grow together

ABOUT US

Started in 1994, A'amal Group is a forward-thinking and socially responsible group that aims to redefine Saudi infrastructure. True progress is at the heart of A'amal Group.

A'amal CSS aims to provide extensive support to the Kingdom of Saudi Arabia through quality work, along with Commissioning, Pre-Commissioning, oil and gas general services, plant maintenance, and more. Our work focuses significantly on the health and safety of our employees.

A MESSAGE FROM OUR CEO

“A'amal Group is a dynamic, transparent, and socially responsible group committed to walking the extra mile to fuel the regional economy and improve lives through our various business activities.”

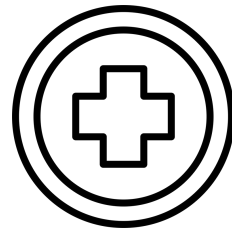

- Yassin Al Suroor

President & CEO A'amal Group

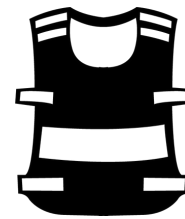

OUR VALUES

A'amal CSS holds the core values of Health, Safety, and Environment. We understand the need to keep our employees safe and our planet protected. Along with our core values, we only produce the highest quality of work.

Health

TURNKEY SOLUTIONS AND CONSTRUCTION SUPPORT

A'amal CSS works to deliver outstanding Construction Support services. While the final product is what most see, our team works diligently behind the scenes to ensure smooth, efficient, and safe project execution.

Our Turnkey Solutions and Construction Support Services encompass industrial plants and construction, Management & Project Control, Procurement & Logistics, Welfare & Human Resources Support, and a range of other essential services, ensuring the success of every project and effective project execution from start to finish.

TURNKEY SOLUTIONS AND CONSTRUCTION SUPPORT SERVICES

Management & Project Control Personnel

We provide highly trained and professional personnel for coordination, supervision and more.

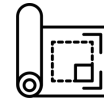

Procurement & Logistics

Our Procurement and Logistics help you get the best prices, contracts, delivery terms and services.

Health, Safety & Environment Teams

Our HSE teams are highly experienced in preventing accidents and ensuring the safest work environments.

Technical & Managerial Project Supervision

A'amal CSS provides vigilant and consistent project supervision in Technical and Managerial departments.

Multidisciplinary Technical Specialists

Our Multidisciplinary Technical Specialists bring a holistic perspective to complex problems in a variety of industries.

Training, Learning & Development

We provide exceptional Training, Learning, and Development services, in all areas related to building your team to the highest quality.

And more

- Welfare & Human Resources Support
- Site Security and Permit To Work alongside existing Plant
- Construction Trades & Skilled Personnel

PRE-COMMISSIONING

Prior to the commissioning process, A'amal CSS offers comprehensive Pre-Commissioning services. This phase involves conducting thorough checks, tests, and verifications to ensure readiness for commissioning.

Our Pre-Commissioning services encompass Validation Protocol Writing, Computer Validation, Start-Up, Troubleshooting, and other essential tasks, ensuring a smooth transition to the commissioning phase.

PRE-COMMISSIONING SERVICES

Commissioning Testing

We carry out all appropriate tests to ensure systems, equipment, and components are functioning correctly resulting in a smooth and efficient Commissioning process overall.

Validation Protocol Writing

Our detailed Validation Protocol Writing ensures that equipment, processes, and systems meet the required standards and regulations of the highest standards.

Protocol Field Execution and Reports

Our experts conduct a thorough Field Execution to produce reports that study HSE, material testing, equipment calibration, and more. This results in a high-quality Protocol Field execution.

Risk Assessments

We produce Risk Assessments of incredible detail and systematically evaluate the likelihood and severity of potential risks and identify strategies to manage or mitigate those risks through Risk Assessments.

Factory Acceptance Testing

A thorough FAT process is a high priority for us, we make sure of executing it in the most effective and efficient manner. We ensure that everything functions correctly and is ready for the factory.

Equipment and System Installation Inspections

Our inspectors are trained and experienced for Equipment and Systems Installation in almost any area.

And more

- Procedure Writing and MCC Dossier Creation
- Computer Validation
- Start-Up and Troubleshooting
- Commissioning and Validation Planning
- Commissioning Procedures, Inspection, and Test Forms

COMMISSIONING

A'amal CSS offers comprehensive Commissioning services, verifying the integration of equipment or systems with other project components. This ensures seamless operation and functionality as per design specifications.

Our Commissioning services encompass Validation, Calibration and Loop Check Procedures, Integrated Systems turnover, and more, guaranteeing the successful deployment and operation of the project.

COMMISSIONING SERVICES

Commissioning Plans, Procedures & Method Statements

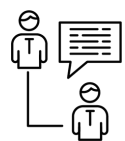

We work to provide a detailed breakdown of the equipment or system being commissioned. This leads to better understanding and the best results.

Installation of Equipment, Systems & Field Devices

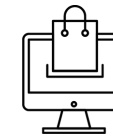

Our professionals take the load and provide the best-in-class Installation of Equipment services. From Field Devices to specialized Equipment.

Validation

Depending on the equipment or system being validated, we provide a smooth and extremely reliable Validation Process that leaves no stone unturned.

System Inspection, Testing & Debugging

We provide end-to-end System Inspection and then Debugging for any errors found. All this is done under our Testing process that sets a bar for quality.

Calibration and Loop Check Procedures

We understand the importance and critical nature of Calibration and Loop Check Procedures. Therefore we approach them with only our best talent to ensure the most accurate results.

Hydro Testing, Flushing & Chemical Cleaning

In order to make sure everything runs smoothly, our Hydro Testing, Flushing and Chemical Cleaning procedures scan and analyze even the most minute areas that need a refresh or cleaning.

And more

- Integrated Systems Turn Over
- Warranty Protection Management
- Commissioning & Start-Up
- Permit to Work (PTW)

START-UP

A'amal CSS offers comprehensive Start-Up solutions to facilitate seamless project initiation for our clients. Ensuring a smooth, error-free, and safe start-up is our top priority.

Our Start-Up services encompass Commissioning, Testing, Validation, Start-Up, Troubleshooting, and more, providing the necessary support to kickstart operations efficiently and effectively.

START-UP SERVICES

Computer Validation

We conduct a thorough and detailed Computer Validation procedure to ensure the equipment and services are being validated to the best standard.

Procedure Writing and MCC Dossier Creation

Our MCC Dossier Creation are produced as a result of deep research and thorough understanding. Our Procedure Writing follows the same detailed steps.

Start-Up and Troubleshooting

A great deal of focus and consistency is poured into this department. This is because we see Startup and Troubleshooting as two critical processes that are essential for a safe and effective operation of systems and equipment.

Commissioning Procedures, Inspection and Test Forms

Our Commissioning Procedures provide detailed instructions for testing and validating the equipment or systems. We also work to inspect any issues and develop Test Forms.

And more

- Commissioning Testing
- Protocol Field Execution and Reports
- Commissioning and Validation Planning
- Risk Assessments
- Commissioning Project Management
- Factory Acceptance Testing
- Equipment and System Installation Inspections

MAINTENANCE

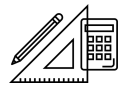

A'amal CSS delivers comprehensive Maintenance Management solutions, overseeing a range of activities including inspections, repairs, replacements, and upgrades.

Our Maintenance services encompass Maintenance and Reliability Assessments, Asset Management Policy Development, System and Asset Criticality analysis, and more. With our proactive approach, we ensure optimal performance, longevity, and reliability of your assets, contributing to operational excellence and cost-effectiveness.

MAINTENANCE SERVICES

Maintenance and Reliability Assessments

Our Assessments involve a comprehensive evaluation of an organization's maintenance and reliability practices to ensure optimal results.

Asset Management Policy Development

We conduct Client Assets Management through highly skilled and professional personnel. This ensures all Policy Development is meticulous in detail.

Asset Hierarchy Development

World-class professionals work to develop our Hierarchy Development. This includes levels of classification, from the highest level (plant or facility) down to the lowest level (individual components or parts).

Root Cause Analysis and Training

Our Root Cause Analysis like to dig deep in even the most minute issues. We help organizations identify the root causes of equipment failures, downtime, and other issues.

Turnaround Planning and Execution

Our Turnaround planning involves a detailed analysis of equipment and facility needs, as well as scheduling and resource planning to ensure that the turnaround is completed on time and within budget.

And more

- Maintenance Strategy Development
- Maintenance Process Mapping and Optimization
- System and Asset Criticality
- Lean Manufacturing and Total Productive Maintenance
- Maintenance Program Optimization and Permit To Work
- RCM/FMEA Facilitation and Training
- Inventory Spares Analysis and Optimization
- Reliability-Availability-Maintainability (RAM) Analysis
- CMMS/EAM Assessment, Design, and Configuration
- Condition Based Maintenance Evaluation and Design
- Mechanical Integrity Evaluation and Design
